

SECOND ANNUAL JOB SHADOW DAY

On Friday, January 31st, we hosted 14 students from four different schools for a job shadowing event. Students got to see several areas like Property Management, the District Energy Plant, and Landscape, just to name a few. The students were highly engaged, asking many questions about co-op opportunities, summer jobs, and educational paths leading to careers in Facilities Management. If you are interested in setting up a Job Shadowing appointment for your class, please reach out to Hayley White (hcw0028@auburn.edu).
